Guadeloupe — Remote

BACKEND

Go • REST • PostgreSQL
Modular architecture • Atlas

FRONTEND

TypeScript • React • React
Native • Vue.js

DEVOPS

Docker • Kubernetes • CI/CD
Git • Observability

SOFT SKILLS

- Ownership & reliability
- Structured problem-solving
- Clear communication
- Long-term mindset

COMMITMENT

Long-distance running —
discipline & consistency

KÉVIN GUIEBA
FULLSTACK ENGINEER — BACKEND-ORIENTED

Systems • Architecture • Production

PROFILE

Fullstack engineer with strong backend focus. Design and implementation of scalable, production-ready systems with a long-term quality mindset.

EXPERIENCE — OPTIMA 92 (2023–Present)

- Backend refactor toward modular Go service architecture.
- Implementation of maintainable production APIs.
- Development and evolution of a production React Native app.
- Contribution to backend technical decisions.

FREELANCE DEVELOPER (2022–2023)

Autonomous web and mobile project delivery: technical design and full lifecycle execution.

PERSONAL TECH PROJECT (ONGOING)

MoovOn — personal project exploring modular backend architecture in Go.

EDUCATION

Application Developer — JavaScript React (RNCP 6 equivalent)
